Bibliometric analysis and current status of Leishmaniasis

research indexed in Scopus, 2010 - 2023

In general, the work is well done and contains a lot of relevant information on the topic of Leishmaniasis. However, it has some minor mistakes that will need to be addressed.

1. In page 1, in the abstract, in the Background, in the third line:

The word sandfly, only a space: sand fly

1. In page 15, second paragraph

the information retrieved from Scopus in the present study.

Please, modify the word: "form" to "from"

1. In page 25, first paragraph

Authors should be writing references

Because, in the sentence: Several primitive descriptions of the disease in ancient writings and molecular findings from ancient archeological material have been recorded.

It is necessary to know what the bibliographic source is.
