

# Review of: "Biofuels and nanocatalysts: A Data Mining study"

SABARISH RAJAGOPALAN

**Potential competing interests:** The author(s) declared that no potential competing interests exist.

First, I want to say how much I value the authors' work. The paper is well-written and uses quality literature. The novelty is portrayed clearly. The image is of high quality. My point of view, in figure 5 name is not mentioned clearly, there is two images is there 5 (a) and 5 (b) instead of Figure 5 (top) and Figure 5 (bottom). In figure 7 Add Abbreviation part or explain in detail.
