## Comments to the Author

Dear Author,

This is an interesting article however there are certain changes to be made in this paper

## Abstract

It needs almost completely rewriting, fair structure

## Introduction

No comments

## Methodology

There are some issues pertaining to the study design. This is a quasi-experimental.

## Discussion

The **discussion is clearly**. A discussion has a reasonably logical flow. It covered all main point concerning. The discussion does cover the **limitations and weaknesses** of the study.

There are no limitations mentioned for the study

The conclusions reasonable, and not too ambitious given the study.

There have also been several grammatical errors throughout the manuscript. Would request you to proofread it before submission.

Also, make sure to have all references in the correct format.

The **tables and figures** are appropriate and accurate. This refers to the data presented in tables and figures. However,

they should revise easily understood.

Also, make sure to have all references in the correct format both on the text.
