Potential competing interests: No potential competing interests to declare.

Title: Can rephrase the title for clarity and focus

Terms: School leaders is general and readers struggle to understand whether you refer to Headmasters, Principals , Heads of Departments or Teachers in Charge.

Briefly describe participants.

You can also improve the literature review and be mindful of the fact that COvid 19 conditions have changed since 2020.

Vaccines and movement restrictions have changed.

More scientific researchers would have helped you strengthen the paper.

More could be done to your methodology and data collection.

You need to triangulate your data/ Multimethod approach

The finding and discussion needs to be more informative- ie What new knowledge has been generated which motivate readers to read your article.

Conclusion should carry strong message of the paper and the new discovery.

Subheadings can be rephrased for focus and meaning

Rework the paper and improve the arguments
