

Review of: "Translational Mobility Medicine and Ugo Carraro: A Life of Significant Scientific Contributions Reviewed in Celebration"

Francesco Coscia¹

¹ University of Perugia

Potential competing interests: No potential competing interests to declare.

The article is an original, stimulating excursus of Prof Carraro's life as a student, researcher, lecturer and author.

It is sure to be useful and thought-provoking reading for younger people and reflective for those who are going through the difficult business of research.

Congratulations to the authors.
