

# Review of: "Integrating Community Service in Language Education: Fostering Social Change via Inclusive and Transformative Learning Experiences"

Carina Fernandez

Potential competing interests: No potential competing interests to declare.

The reasoning followed by the author from the problem to the formulation of the question is not clear. Furthermore, the methodology is not described, which is essential in scientific research articles, including those coming from documentary research.

The article must be rewritten in order to specify the contribution to knowledge and the methodology used.
