

# Review of: "[Review] Redefining the Concept of e-Government Program. A Review of the Literature"

Aroua Taamallah

Potential competing interests: No potential competing interests to declare.

Starting from the title: it's a literature review. I prefer that you read more articles about ICT platforms, government processes, information and service delivery, digital society, business environment, and other governments, public participation and involvement, and accountability and transparency. There exist a lots of works on those topics this will help you refine the proposed conceptual Framework.
