Potential competing interests: No potential competing interests to declare.

Paper provides interesting findings about spatiotemporal changes in the crop diversification index over time. But it is important to highlight the novelty and uniqueness of your research, especially in the context of crop diversification and how it will be useful.

Please further elaborate on the discussion section by adding relevant references along with the significance of these results, comparing them with previous studies, and by writing about the assumptions and limitations of the current study and the future scope of the work.
