Kuvasz

National Cancer Institute

Source

National Cancer Institute. *Kuvasz*. NCI Thesaurus. Code C53771.

The Kuvasz is a well-proportioned, white sheepdog. The medium-boned dog is muscular, but not bulky. The ears are folded and close to the head. Though the coat is white, the skin is generally dark. The coat is medium-length, either straight or quite wavy, with a thick undercoat. It forms an abundant mane around the neck and chest. Height: 26-30 inches (66-76 cm.) Weight: 70-115 pounds (32-52 kg.)
