Potential competing interests: No potential competing interests to declare.

This is a well-written and structured paper. Well done.

A few comments for quality improvement:

The authors should clearly include a methodology and a discussion section.

The authors should discuss their findings in line with previous studies. To do this, they have to clearly indicate the state of research on this topic in their literature review and discuss how their research fits in.

The authors should discuss their findings in line with the theory used—game theory—and link to previous studies.
