Congenital dyserythropoietic anemia

INSERM

Source

INSERM. (1999). *Orphanet: an online rare disease and orphan drug data base*. [Congenital dyserythropoietic anemia](#). ORPHA:85

Congenital dyserythropoietic anemia (CDA) is a heterogenous group of hematological disorders of late erythropoiesis and red cell abnormalities that lead to anemia. Five types of CDA are defined: CDA I, CDA II, CDA III, CDA IV and thrombocytopenia with CDA (see these terms).
