# GAIA Level 2 Preeclampsia

National Cancer Institute

## Source

National Cancer Institute. *GAIA Level 2 Preeclampsia*. NCI Thesaurus. Code C128004.

GAIA Level 2 Preeclampsia is defined by three criteria: first, the gestational age of the pregnancy must be greater than or equal to 20 weeks; second, a diagnosis of new onset maternal hypertension (systolic blood pressure greater than or equal to 140mmHg and/or diastolic blood pressure greater than or equal to 90mmHg) that is sustained on two measurements for a minimum of one hour; third, a diagnosis of new onset proteinuria that is a level 2 diagnostic certainty (proteinuria diagnosed with greater than or equal to 1+ protein on urine dipstick).
