The article titled "Microinsurance: Bibliography of Unclassified Literature" addressing a very important issue related microfinance. A few minor changes is advisable:

1. It has mentioned in the paper that microinsurance has very limited attention till date. It is suggestive to justify a few reasons for that.
2. Also, a few literatures would add up the quality of the paper related to the linkage between financial literacy and microinsurance.
3. Literatures covering the impact of Pradhan Mantri Jan Dhan Yojana (PMJDY) on microinsurance can be mentioned for enriching the quality of the paper.
4. More contemporary literatures can be added for betterment.
5. It is suggestive to include few literatures on the microinsurance in post covid phase, its role, impact on the beneficiaries can be focused on those literatures.
