Potential competing interests: No potential competing interests to declare.

The paper title and given content are not suitable to each other. There are a lot of sentence structure and grammatical mistakes that should be rechecked and proof read. The Table and figures need more clarifications. The bullets are prohibited in the scientific writing. The paper should be revised from the technical English expert. There are a lot of space issues which should be rechecked. The scientific names should be in italic format in entire manuscript. The conclusion should summarize the results of the paper.
