**Potential competing interests:** No potential competing interests to declare.

1. The abstract must contain an introduction, objectives, methods, results and conclusions.
2. What are the *Staphylococcus aureus* and *E. coli* bacteria that ATCC uses? Please enter the certificate number. Isolate information must be clear.
3. Is there a standard bacterial concentration used for testing?
4. How do the authors predict that the loss of the NH<sub>2</sub> group will reduce antibacterial activity?
