Potential competing interests: No potential competing interests to declare.

Thanks for giving me the opportunity to review the proposed manuscript. Please find below my comments:

Introduction and discussion

Would you please add more references? Only 20 references were used by the author; it's essential to strengthen and enrich these two parts of the manuscript to have good literature about the topic.

Sample size

Would you please provide more details on the sampling technique used in the study?

Conclusion and recommendations

Would you please share more information on health education, how it should be provided and implemented, who should provide it, and any regulation from the Ministry of Health?

Ethical approval

The ethics code # provided by the ethical clearance, which was obtained from the Institutional Review Board of Debre Tabor University, School of Midwifery, College of Medicine and Health Sciences (CMHS), is missing. I would suggest adding it.
