Synbiotic Supplement

National Cancer Institute

Source

National Cancer Institute. *Synbiotic Supplement*. NCI Thesaurus. Code C99230.

A nutritional supplement comprised of prebiotic and probiotic ingredients, with potential immunomodulating and gastrointestinal (GI) flora restoring activity. Upon ingestion of the synbiotic supplement, the prebiotics and probiotics work synergistically in the GI tract, thereby modulating the GI flora ecosystem and may improve the functions of the intestinal barrier. In addition, synbiotics may have a beneficial effect on the immune system.
