Comments from Associate Professor Dr. Anwar Kurniadi regarding the article entitled:

"Review of: Law Indigenous Peoples Confronting International Fraud and Mafia Cases on the Large Displacement of Rohingya Refugees to Indonesia Aberrant Behavior Violation of Indonesian Law by Rohingya Refugees Causing Societal Harm and Economic Loss"

There are several things that need to be corrected and improved:

1. The abstract does not meet the requirements because the number of words is excessive, the main prologue lacks focus, there is no research objective, and the keywords are ambiguous.
2. How to complete the literature on research methods is still incomplete.
3. Problem-solving to answer the research objectives is quite focused but not firm, so it seems like just a narration.
4. Conclusions are still not clear.
5. The procedure for writing literature is not appropriate.
6. Too many literature sources come from websites, so the scientific value is not good.

Conclusion: There must be a major revision if it is to be published because it does not meet the standards of academic publishing.
