**Potential competing interests:** No potential competing interests to declare.

Following improvements can be made:

- 1: Literature review is missing; there should be a table mentioning relevant research in the past on this topic.
- 2: Project description should discuss the introduction to the problem, motivation behind the problem statement, and comparison of this solution to past solutions in the first paragraphs.
- 3: Comparative results are missing.
- 4: Section 3 can be improved with more details.
