Title

The authors need to be more specific about what they are replacing as there is a difference between a fish feed and fish meal.

Abstract:

The abstract is well written. However, the grammar can be improved upon.

Introduction

Recent data and references are needed to explain the justification for this study. A 2010 reference cannot be said to be recent when there are numerous published works on the same subject matter within the past 3 years.

Materials and Methods

Valid references should be provided for the methods used in this study.

Recommendation

The manuscript can be accepted for publication after the raised concerns have been attended to.
