Title: There is high prevalence of overnutrition among married and cohabiting women in Nigeria: Findings from the 2018 Nigeria Demographic and Health Survey

Authors: Oluwaseun Badru, Tunde Adeyemo Alabi

Qeios ID: OJXECU

Thank you for the opportunity to review the manuscript.

The manuscript is well-written and represents interesting findings. It is better, however, if the abstract is subdivided based on the IMRAD (Introduction, Methods, Results, and Discussion).

Otherwise, the manuscript is clear and to the point.

Kind regards,
