Assessing the Role of Consumer Cooperatives in Improving Livelihood of the Members of Hawassa Zuria Woreda, Sidama Regional State, Ethiopia

Reviewer Name: Getasew Daru Tariku

Mekdela Amba University, Ethiopia

-

This study is important by providing information on the Role of Consumer Cooperatives in Improving Livelihood of the Members. However, the paper quality still needs improvement based on the following comments:

General comments

- The introduction is very shallow and the way of writing is not like introduction
- The introduction doesn't have any citation; this makes it weak.
- The literature review is narrow and almost similar with the introduction part
- Describe each specific method of analysis for each objective of the study
- The objectives are limitedly described in the result and discussion part
- The discussion is not compared with previous studies and implications of the finding
