Potential competing interests: No potential competing interests to declare.

1. Include a photo of Pterocarpus marsupium in section 2.
2. Include the text or explanation before you show the table of taxonomic classification.
3. The table of taxonomic classification needs to be labeled.
4. Sections 5.6 and 5.8 are too short; please elaborate with more information or remove them.
5. The information on the extraction method of the bioactive compound needs to be reviewed and included.
6. The method/instrument used to detect or analyse the bioactive compound should be reviewed and the information included in tabulated form or in the text.
