1. In table 1, write 1a, 1b, 1c, and 1d instead of 1a, 2a, 3a, and 4a. This is the suggestion: you can write 1a for molecule 1, 1b for molecule 2, and 1c for molecule 3.
2. Explain [Hmim]. An abbreviation is used, so explain the meaning of Hmim.
3. Name the software that is used for molecules.
4. Origin software can also be used.
5. The title of the paper is suitable.
6. The language of the manuscript is good.
