# Defined Criterion Group Option Relationship

National Cancer Institute

## Source

National Cancer Institute. *Defined Criterion Group Option Relationship*. NCI Thesaurus. Code C93459.

A relationship between a criterion group and an option that can satisfy it, either an activity, observation result or other criterion group, i.e. a relationship between a logical set of parenthesis and one of the options inside the parentheses, where the criterion group and its option are both part of a global library of activities.
