Potential competing interests: No potential competing interests to declare.

- 1- The article is general and a review. Its innovation and research aspect is low and it deals with the expression of previous results in a new case example. Therefore, this article can be considered as a review article.
- 2- In the conclusion section, it is necessary to compare the research results with previous researches.
- 3- At the end of the conclusion section, it is suggested to present the operational solutions of the research.
