Silky Terrier

National Cancer Institute

Source

National Cancer Institute. *Silky Terrier*. NCI Thesaurus. Code C53944.

The Silky Terrier is a fine-boned, moderately low-set, long-haired terrier. It is compact but lightly built with erect, v-shaped ears. It has fine, shiny hair and no undercoat. The coat comes in blue and fire red, or blue with tan markings. Height: 9-10 inches (23-25 cm.) Weight: 8-11 pounds (4-5 kg.)
