

Review of: "Raising Adaptive Capacity to Climate Change in the Energy and Food Sectors of Egypt"

Angeline C Mujeyi

Potential competing interests: No potential competing interests to declare.

Introduction-Start by giving a background on the impact of climate change on energy and food sectors globally, in Africa, and then in Egypt. Specify the research gap and then state "The overall objective....."

1.3 Data sources and Methodology: Source is spelt out, but methodology is unclear. Is it qualitative, quantitative, a review, and how exactly was data for this research gathered?

Results

on GHG emissions include data on trends from 1990 to 2023 for Egypt and discuss the trend

2.2 First line: Is something missing? Why start with a small letter "the"?

"The agricultural yield is positively affected by rainfall and negatively impacted by CO2 emissions.

Where do we see these positive and negative relations? Discuss clearly.

Different font sizes and types for the paper—why? Revise and format the paper.

Why are some references in-text in bold while others are not?

Figure 3: Specify units of measurement.

Figure 4: Maps are hazy.

Figure 5 (2007 source)-Get sources on updated data within the last 10 years for the research to be really relevant.

Why is this on the reference list? & Rosegrant, M) & is for what? Is something missing?

Overall revise the whole paper and use the latest literature within the last 10 years.
