Thank you very much for providing me the possibility to read about such an interesting topic. I will provide my personal suggestion to revise the paper:

- Pay attention to punctuation in the introduction.
- The introduction is a little bit vague, without a clear statement of the objective of the paper. Also, the connection between blockchain and circular economy is not clearly defined.
- I will improve the number of citations, in particular in Section 3.
- I found the first 3 sections quite incoherent. You should try to armonize the concepts.
- Some acronyms are not defined in the text (i.e., CCS)

Good luck!
