

Peer Review

Review of: "Ethical Dimensions of Artificial Intelligence in Educational Technology and Policy: A Global Bibliometric Analysis (2020–2025)"

Dr. Khurram Shahzad¹

1. Library, Government College University Lahore, Pakistan

1. Length of the paper needs to be enhanced.
2. Language needs to be refined throughout.
3. The methodology section is not up to mark.
4. The discussion section needs to be increased.
5. Show implications realistically.
6. Limitations should be mentioned at the end of the manuscript.
