# 7H-Dibenzo[c,g]carbazole

National Cancer Institute

## Source

National Cancer Institute. *7H-Dibenzo[c,g]carbazole*. NCI Thesaurus. Code C44327.

A crystalline, carcinogenic aromatic hydrocarbon consisting of five fused rings and produced during the incomplete combustion of organic matter. 7H-Dibenzo[c,g]carbazole is primarily found in cigarette tar. This substance is used only for research purposes. 7H-Dibenzo[c,g]carbazole is reasonably anticipated to be a human carcinogen. (NCI05)
