The topic “**Coconut flower - market potential and future forecast in the Coconut Land (Bến Tre), Vietnam**” is an interesting in the field. However, before accepting for publication, some point of manuscript needs to revise and make it clear for correct understanding.

**Minor revision is required.**

**Comments are below...**

1. Typographical errors exist throughout the manuscript. Rectify carefully.
2. What is the objective for Coconut flower study?. Why has the author not included the edible part of coconut?
3. Include more recent references in manuscript with all section.
4. What is the reason behind the choice of Coconut flower for other useful purpose?
5. In general, how much the Coconut flower growth or planting in the Vietnam? It is unclear and needs clarification. Also, it is fine for food application?
6. Check the abbreviations throughout the manuscript and introduce the abbreviation when the full word appears the first time in the abstract and the remaining for the text and then use only the abbreviation. Make a word abbreviated in the article that is repeated at least three times in the text, not all words need to be abbreviated.
7. In the conclusion seems to be in general and is not given separately, it is highly recommended to include limitation of the study and potential future research goals.
