

# Review of: "Women In Slum Risking Their Safety To Access And Usage Of Basic Water And Sanitation Facilities"

Omoladun Odediran

**Potential competing interests:** No potential competing interests to declare.

The article is current and relevant, it deals with burning issue regarding women living in the slums. It is an easy read and informative. However, i will suggest an improvement in the methodology, kindly follow PRISMA checklist to enhance the rigor of the systematic review process. Using a software would also go a long way to ease the burden of combing through over six thousand articles.
