

Review of: "Process for Implementing a Quality Management System (QMS) Adapted to Architectural Practices in Tunisia, in the Case of ISO 9001"

Madhab Chandra Mandal

Potential competing interests: No potential competing interests to declare.

The article offers a thorough analysis of ISO 9001 implementation and alternative methodologies within Tunisian architectural firms. It effectively outlines the benefits, such as enhanced service quality and market competitiveness, while acknowledging initial hurdles. The inclusion of "Planer am Bau" provides valuable insights into tailored approaches for architects. However, further exploration of practical implementation strategies would strengthen the article's applicability. Additionally, while the discussion on French HQE standards is insightful, more emphasis on overcoming potential challenges in their adoption would enhance the comprehensiveness of the review. Overall, it provides valuable insights for architectural practitioners aiming to bolster their quality management systems.
