# Log10 50 Percent Tissue Culture Infective Dose per Milliliter

National Cancer Institute

## Source

National Cancer Institute. *Log10 50 Percent Tissue Culture Infective Dose per Milliliter*.  
NCI Thesaurus. Code C132478.

A logarithmic-scale (base 10) potency unit for measuring infectious activity of a biologic product or infectious agent preparation equal to the potency at which one milliliter of infectious material contains one 50 percent tissue culture infective dose.
