Developmental Therapeutics Program

National Cancer Institute

Source

National Cancer Institute. *Developmental Therapeutics Program*. NCI Thesaurus. Code C16009.

As the drug discovery and development arm of the National Cancer Institute, the Developmental Therapeutics Program (DTP) plans, conducts, and facilitates development of therapeutic agents for cancer and AIDS. They are a resource for research materials, including Web-accessible data and tools, vialled and plated compounds, tumor cells, animals, and Investigational New Drug (IND)-directed studies.
