# Non-Adjuvanted A(H1N1) Influenza Vaccine

National Cancer Institute

## Source

National Cancer Institute. *Non-Adjuvanted A(H1N1) Influenza Vaccine*. NCI Thesaurus. Code C88334.

A monovalent vaccine containing hemagglutinin (HA) of influenza A (H1N1)-like virus with potential immunomodulating activity. Upon administration, non-adjuvanted A(H1N1) influenza vaccine may stimulate the immune system to mount an antibody response against H1N1.
