Potential competing interests: No potential competing interests to declare.

Abstract:

In the introduction, just mention that you don't have guidelines for investigating these violences.

In the results section, only the remaining codes and the number of sub-themes and main themes should be noted.

Results:

The sub-theme Referral to SPAVO is not clear.

Discuss:

The discussion should be based on the main themes obtained and should focus more on the results obtained by your own study.
