

Review of: "The symptomatic expression of infection with the Omicron variant in Chinese patients; findings from the Clifical COVID-19 clinical case registry"

Pavlo Dyachenko

Potential competing interests: The author(s) declared that no potential competing interests exist.

This is a well-written article describing the clinical symptomatology of the Omicron strain in China. A comparison with other countries is also given. The distribution of symptoms in terms of homeopathy is of interest. This article is recommended reading.
