

# Review of: "A Value-Driven Future Approach to Precision Medicine for Health Sustainability in New Zealand: A Perspective"

Giuseppe Castaldo<sup>1</sup>

<sup>1</sup> University of Naples Federico II

Potential competing interests: No potential competing interests to declare.

The review proposed by the author is new and appealing. However, some critical points need to be reviewed:

- The topic of the review does not emerge from the abstract, i.e., precision medicine in New Zealand;
- The acronyms should be revised throughout the text, reporting them in full the first time they are mentioned;
- The English editing should also be reviewed;
- Figure 1 is not cited in the text.
