This is a timely study. The authors did a nice job; however, a few more modifications can enhance the quality of the paper. Here are some:

1. Ensure that the abstract succinctly outlines the study's methodology.
2. Adjust the introduction section to commence with an overview of the bakery industry at a broader level, gradually focusing on the specific context of the bakery industry in Nigeria.
3. The problem statement in the study should explicitly highlight research gaps, encompassing both theoretical and industry aspects. The authors should delve into this realm, clearly defining the existing gaps.
4. Align the study objectives and findings to ensure coherence.
5. It is advisable for the authors to incorporate recent citations in their study for up-to-date references.
