

# Review of: "Exploring the Significance and Medicinal Potential of *Rubus fraxinifolius*: A Review of Ragimot Wildberry"

Dr. Sonali Pandey

Potential competing interests: No potential competing interests to declare.

It is my opinion that this work has been done superficially. To be considered a review article, the article is too brief. More literature is needed to support the study. Several grammatical, spelling, English spotting, and sentence framing mistakes have been noticed. Details regarding the nutritional makeup and functional characteristics are lacking. Crucial details and figures needed to understand this study are missing. I suggest including key tables and figures to improve the manuscript's quality.
