# Intramural Research Training Award

National Cancer Institute

## Source

National Cancer Institute. *Intramural Research Training Award*. NCI Thesaurus. Code C18856.

The Postdoctoral Intramural Research Awards Program provides new investigators with advanced training and an opportunity to conduct full-time research in a laboratory environment that is compatible with the interests of the participant. IRTA Traineeships are established for the principle benefit of the participant and to provide opportunities for developmental training and practical research experience in a variety of disciplines related to biomedical research, medical library research and related fields.
