I really like the paper. The topics CSR, CSP, ESG factors are very very interesting and inspiring, I'm also in touch with this. Theoretical background is highly deep and the methods are appropriate. The results are well presented and the discussion (comparison to another studies) is made. I can see the limitations at the end of the paper and the future works, I would be happy to be a part of your "team". I like the topic and the style of your research. Kind regards :)
