Potential competing interests: No potential competing interests to declare.

- 1- The references should be updated (2022, 2023).
- 2- More details about prediabetes should be written: e.g its definition, etiology, pathophysiology and how to screen to diagnose this condition
- 3- The action of GLP-1 and mechanism of its drug agonist should be written in details to make the link clear
- 4- Regarding albumin; why it is decreased ; may be as it is a negative acute phase reactant
