Proteasome 26S Subunit Non-ATPase 10

National Cancer Institute

Source

National Cancer Institute. *Proteasome 26S Subunit Non-ATPase 10*. NCI Thesaurus.

Code C17778.

26S proteasome non-ATPase regulatory subunit 10 (226 aa, ~24 kDa) is encoded by the human PSMD10 gene. This protein is involved in both the assembly of the 26S proteasome, ubiquitin-dependent protein degradation and signaling pathway regulation.
