### Behaviour Change Intervention Ontology (BCIO)

**Definition:** A of two people who interact and influence each other.

**Curator note:** This definition is based on the work of Scholz et al (2025), as published here:  
<https://osf.io/2364r/>

*This definition was imported from the Behaviour Change Intervention Ontology (see <https://bciosearch.org/>).  
Comments and suggestions for improvements are welcome using the Qeios review system.*

*Definitions imported from the Behaviour Change Intervention Ontology (BCIO) are what are known as  
'ontological definitions'. See this article in Qeios for an explanation <https://www.qeios.com/read/YGIF9B>.*

*Ontological definitions can sometimes be hard to read. In those cases we also include an informal definition.*

*Definitions also often require elaboration to make it clear how they should be used and what they include. In  
those cases we include a comment.*

*Also, definitions sometimes require an explanation as to how they came about to help users understand how  
they relate to alternative definitions. In those cases we include a curator note.*
