Potential competing interests: No potential competing interests to declare.

1	Grammatical errors. Needs proof-reading
2	Literature review is insufficient
3	It's more of a report/ article and less of a paper
4	Potential benefits of CBDCs can be elaborated further for a better understanding
5	There are claims to the oversight benefit from CBDCs but the same needs to be elaborated. It begs for the explanation for such beneficial claims of CBDCs
6	Central bank is one in every country, how US is having two??
7	Title of the paper do not justify the content and objectives of the study
8	The idea is good, objectives are also good but paper is not able to satisfy the reader. Needs more explanation for all the claims/ objectives stated.
9	Major revision suggested.
