A manuscript titled "Policy-Based Water Management Challenges at the Local Level Under Non-traditional Security Perspective: The Case of Hanoi City, Vietnam", identifies water security (WS) management challenges at the local level with the case study of Hanoi, Vietnam, in 2020 – 2022. The manuscript is interesting. **Therefore, I recommend this study to be published in a reputed journal.** On the basis of a detailed review, I recommend a minor revision of the manuscript. The specific comments are below;

1. The manuscript needs to be written in improved language.
2. The references are sufficient; still, more recent references could be included.
3. Use of two long-tail keywords instead of four.
4. The conclusion does not reflect the abstract. May be rewrite it.
