This paper is an interesting paper and good written, the following comments must be correct:

-In abstract, the name of *Pseudallescheria* must substitute with the new name as *Sedosporium* as long with old name like: *Sedosporium(pseudallescheria) boydii*

-In the text, all the bacteria name like *Nocardia* must turn to italic form and the genus must beginning with small letter like *NocardiaFarcinia*.

-In table one, the etiological name of the organism must separate with space between genus and species
